OBJECTIVE

I am a results-oriented Software Engineer with over a year of hands-on experience in Full Stack development, actively seeking a challenging full-time role in Cybersecurity. I possess proven skills in secure software design, threat detection, and risk mitigation. I am committed to staying current with the latest industry practices, ensuring my ongoing professional growth to consistently provide effective solutions in the rapidly changing landscape.

SKILLS

Technical Skills	Tool development, Application security, Secure code review, Azure DevOps
Soft Skills	Effective communication, Report writing, Self Initiative
Tools	Nmap, BurpSuite, CrackmapExec, Impacket, BloodHound, Metasploit Framework, Sliver
Languages	Python, Bash, Go, Powershell, JavaScript, C#, C++

EXPERIENCE

Developer	May 2022 - August 2023
Live in Peace	Regina, Canada (Remote)

In this role, I helped a start-up build a product from the ground up by:

- Daily maintenance of code, debugging issues and solving relevant problems.
- Presented findings in a clear and concise manner to key decision-makers.
- Developed a MVP product with React, Typescript and .Net Core.
- Refactored the codebase and implemented additional features.
- Assisted in building the CI/CD pipeline using Azure DevOps.
- Conducted a secure code review on existing code bases to identify potential vulnerabilities.
- Documented implementing of OAuth into existing application
- Occasionally assisted back-end developers with refactoring the API

PROJECTS

Self hosted homelab. Implemented, managed and documented a collection of Docker containers hosting self-hosted services, creating a dynamic and self-sufficient home infrastructure, including authentication with OpenLDAP.

Ansible roles to setup a penetration testing virtual machine. Scripted a Ansible playbook to automate environmental setup according to my personal preferences

Python based C2. Building a functional command and control framework based on web sockets and DNS for communication.

CERTIFICATIONS

CompTIA Security+ CE	July 2021
-----------------------------	-----------

EDUCATION

Bachelors in Computer Science , Pimpri Chinchwad College of Engineering	2017 - 2021
--	-------------

EXTRA-CURRICULAR ACTIVITIES

- Pro Hacker on HackTheBox, ranked Top 20 in India
- Administrative staff for a international group of hackers, Republic Of Hacker, with over 1700 member
